Message from the Town Council Chairman

Mesej dari Pengerusi Majlis Bandaran

市镇理事会主席致辞 நகர மன்றத் தலைவருடைய செய்தி

We are pleased to share with you the developments Pasir Ris-Punggol GRC and Punggol East SMC will see in the coming years.

Pasir Ris residents can expect a number of exciting changes starting with the new Pasir Ris Town Centre developed under the Remaking Our Heartland programme. To open in 2027, the dynamic Town Centre will house the Pasir Ris Integrated Transport Hub, a polyclinic, and a Town Plaza with a Heritage Garden.

我们很高兴与您分享白沙－榜鹅集选区和榜鹅东单选区在未来几年的发展。

接下来几年内，巴西立居民将会在社区中看到多个令人期待的变化，其中包括在“再建我们的家园”（Remaking Our Heartland）的计划下所翻新的白沙镇中心。预计于2027年开幕，全新的白沙镇中心内将设有巴西立综合交通枢纽、综合诊疗所，以及具有一座历史公园的镇中心广场。

榜鹅，新加坡最年轻但发展最快速的社区，将会有多项主要的开发项目，让城镇变得日益美好和完善。即将落成的榜鹅数码园区（Punggol Digital District，简称PDD），日后将为榜鹅镇创造2万8000个就业机会，以便让居民们可以在自己的住家附近工作。此外，新加坡理工大学的新校区也将建于榜鹅数码园区内，为年轻的一代提供更多的就学选择。

将于2021年投入使用的榜鹅镇综合社区中心将设有榜鹅镇内的第一座公共图书馆、一个

Punggol，the youngest but fastest-growing town in Singapore, has several key developments in place which will take the town to newer heights. We have the upcoming Punggol Digital District (PDD) which will create 28,000 new jobs so residents can work closer to their homes. Furthermore, Singapore Institute of Technology's new campus will be built within PDD, offering more education choices for our young.

Punggol Town Hub, to be ready in 2021, will house Punggol's first public library, a hawker centre, and the revamped Punggol Vista Community Centre, so residents can learn, dine, play, and shop all under one roof. The new Punggol Regional Sports Centre will also allow for more community sports activities and events to take place.

In neighbouring Sengkang Central and Punggol East, an integrated complex in Buangkok housing a community club, three-storey mall, childcare centre, and a hawker centre will be ready by 2022. The new Rivervale Community Club next to Rivervale Plaza will open this year, and will house one of two new large childcare centres to be developed in this part of the town.

Our town's transport network and connectivity are set to expand with new MRT stations at our doorstep. Pasir Ris Station, Pasir Ris East Station, and Loyang Station under the new Cross Island Line (CRL) will connect you to stations such as Ang Mo Kio, Bright

Hill, and Hougang after the completion of Phase 1 in 2029. The new CRL – Punggol Extension, to be completed in 2031, will connect Pasir Ris MRT Station to Punggol MRT Station with new stations at Elias (Pasir Ris West) and Riviera (Punggol East). While the new Punggol Coast Station (2023) under the extension of the North-East Line will cut travel time to the city centre and other parts of Singapore by up to 15 minutes.

Together with HDB and other agencies, the Pasir Ris-Punggol Town Council will continue to roll out estate improvement projects such as the Home Improvement Programme, Neighbourhood Renewal Programme, Lift Upgrading Programme, Lift Enhancement Programme, and Lift Replacement Programme. Cyclical works such as repairs & redecoration works, and the installation of solar panels and LED lights for greater energy efficiency, will also be conscientiously carried out to rejuvenate the town.

We would like to thank you for your patience, and for your continuous feedback, as we work hard to better the community.

Pasir Ris Town

Pasir Ris West

A coastal town by the sea and surrounded by plenty of nature, Pasir Ris has drawn many people to live in this lovely part of Singapore. In the coming years, more housing will be built next to Pasir Ris Park not only to support new residents who want to live here, but for second-generation Pasir Ris residents to have more opportunities to find a home near their parents and remain in our Town.

The facilities and infrastructure in our Town are being improved and modernised to meet the new and varied needs of our existing and new residents. In 2018, the Pasir Ris Central Hawker Centre opened its doors to the public. Malls like White Sands, Loyang Point, and Elias Mall all underwent revamps to provide greater retail and food options for everyone. Pasir Ris West Plaza will soon undergo upgrading as well.

With the Remaking Our Heartland programme now underway, residents will soon be able to enjoy a reinvigorated urban sanctuary by the sea as their home. At the Pasir Ris Town Centre, a mixed-use development with a new integrated rail and bus transport hub, with retail and residential units will be built.

The upcoming Cross Island Line (CRL) and CRL – Punggol Extension will intersect at the existing Pasir Ris MRT Station. Pasir Ris Town will be more connected with new stations at Pasir Ris East, Loyang, and Aviation Park when the CRL is up and running. A new Elias MRT Station will also be built under the CRL – Punggol Extension, which will give you greater accessibility to the North-Eastern parts of Singapore.

While we develop new parts of the town, we will also upgrade and modernise our existing precincts throughout Pasir Ris under the Neighbourhood Renewal Programme where estates will undergo block-level and/or precinct-level improvements.

Building a close-knit and happy community, and a lovely place to call home for you and your family remains our priority. I look forward to working with you to create a home that brings all of us together.

Pasir Ris East

Pasir Ris residents can look forward to many developments in our district in the coming years that are critical in improving the quality of living for all, starting with the Pasir Ris Town Centre. Set to be completed by 2027, the Town Centre will house an Integrated Transport Hub (ITH), polyclinic, and Town Plaza with a heritage garden.

A series of exciting transport infrastructure is also currently in the works to enhance your daily commute. This includes increasing the vehicle capacity at Loyang Avenue to Tampines Expressway (TPE) and Tampines Avenue 7 through the addition of new viaducts. Ready by 2026, residents can expect to save up to 25% of their travelling time when moving along TPE or when heading to Changi.

In the same year, the Pasir Ris Drive 3 road will also be expanded to create a dual three-lane carriageway, a new cycling path, and pedestrian walkway. In addition, the Cross Island Line (CRL) from Changi to Jurong – Singapore's longest underground MRT line – will be ready by 2029. The new Pasir Ris East Station under the CRL will take you to the doorsteps of Pasir Ris East Community Club, White Sands Primary School, and Loyang View Secondary School. The upcoming Loyang Station will connect you to the vicinity of Loyang Industrial Estate and Loyang Bus Depot.

The continual improvement of our division has always been one of our top priorities as we strive to build a more comfortable home for our residents. Let us all work together to create a better Pasir Ris East together.

Sengkang Town

Sengkang Central

Over the last few years, we have focused on building up Sengkang Central's infrastructure and programmes to create a more caring, cohesive, and vibrant community.

Younger residents have been making full use of the study areas we've set up at Sengkang Community Club (SKCC) and the Residents' Committee (RCs), with more locations to come.

Working adults have been enjoying Workspace at SKCC, where we provide them an office space, meeting room and printing services.

For our seniors, we now have two vans to ferry them to the polyclinic or Traditional Chinese Medicine clinic.

In addition, a large childcare centre has recently opened at Sengkang Square. The 6,000sqm centre can take in up to 600 children. The Sengkang General and Community Hospitals which opened in August 2018 is connected to Cheng Lim LRT station for greater accessibility.

By 2022, commuters can soon look forward to improved barrier-free access and new dual-speed escalators leading to the MRT and LRT platforms, and an extra lift for the MRT, LRT and mezzanine levels. The current LRT train platform will also be expanded.

In Buangkok, plans are underway to develop an integrated community hub with a hawker centre, community club, childcare centre, retail shops as well as public rail and bus transport facilities.

We look forward to listening to your suggestions on how to improve our constituency, as we continue to strive to make Sengkang Central a home for everyone.

Punggol East SMC

At Punggol East, we are pleased to share that the opening of childcare centres has eased the demand for places and parents sending their children to these facilities can go to work with a greater peace of mind. A large childcare centre with 550 places opened at Rivervale Crescent in March 2020, and a second one will come as part of the new Rivervale Community Club that is estimated to be ready later this year.

Under the Bus Service Enhancement programme, the number of routes has doubled and bus services 371 and 654 were added to bring residents to Sengkang interchange, LRT stations, Rivervale Mall, and the Central Business District seamlessly.

In November 2019, the expansion of KPE/TPE Interchange and new link roads to Punggol Central, together with a new slip road from KPE(TPE) to TPE(SLE), have been completed.

Harmony Square Two next to Block 157A Rivervale Crescent, since its completion in early 2017, has been where many residents have come together for events such as mass Zumba, countdown parties, Mid Autumn Festival and more.

To encourage an active lifestyle, a new space for sports and recreation near Harmony Square Two is in the works. Called Sport-In-Precinct @ Punggol East, this development will feature sheltered playing areas, fitness zones, and a covered multi-purpose court for netball and basketball.

Moving forward, our team will continue to work closely with residents to improve Punggol East.

Punggol Town

Punggol North

We are happy to share with you the new developments Punggol North has seen over the past few years, and update you on how this town will continue to take shape.

Amongst the projects already completed include the PAP Community Foundation's largest childcare centre, PCF Sparkletots @ Punggol North. Spread over 10,000 sqm, the centre provides full day child care and infant care services for children aged 2 months to 4 years old.

Also completed is Oasis Terraces, a one-stop facility located just next to Oasis LRT that has been serving residents since February 2019. Other than housing the new four-storey Punggol Polyclinic which provides quality medical care to residents at a central location, Oasis Terraces also has eateries, a 24-hour fitness centre, and a supermarket amongst others.

In terms of future developments, Punggol's first fire station will soon find home at 151 Punggol Central. To be ready in 2020, the fire station will share a building with the

town's Neighbourhood Police Centre, and residents can expect speedier responses to emergency situations.

We will continue to build on what we have so as to offer residents a great home.

Punggol Town

Punggol Coast

Here is a quick summary of the developments in Punggol Coast over the last five years.

The opening of SAFRA Punggol and Waterway Point in 2016, as well as the opening of Punggol Town Square in 2017, has added more activity, fun and food!

The opening of Punggol Cove Primary School and Oasis Primary School provided us more school places, while the opening of three My First Skool Early Years Centres and a mega childcare centre has helped parents with young children, with more places for childcare.

Another important addition supporting the well being of our residents is the Integrated Service Centre @ Punggol (ISC @ Punggol) by AMKFSC Community Services which opened in November 2019. ISC @ Punggol is critical in supporting teenagers and senior citizens

facing mental health issues, and aims to further public education on mental health.

Punggol Coast's connectivity has also improved with the start of Punggol LRT West Loop (bi-directional) in 2014, and the addition of limited stop express bus service 43E in September 2019.

Our town still has plenty to look forward to: the Punggol Digital District (PDD) will incorporate a business park and the Singapore Institute of Technology's new campus, and a community club. To open progressively from 2023, PDD will create 28,000 jobs in fields such as cybersecurity and data analytics.

A new Regional Sports Centre co-located with the SAFRA clubhouse is also on the way to cater to a wider range of competitive sports and events. Punggol Town Hub, to be ready in 2021, will feature a new hawker

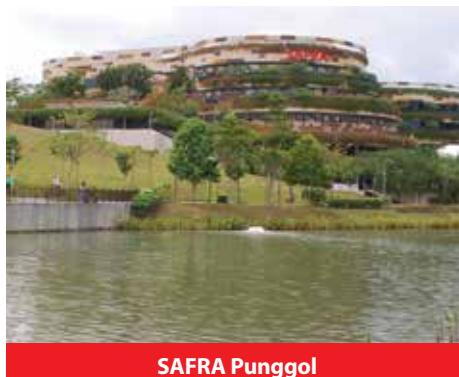

centre, public library, Community Club, a childcare centre, and multiple health service centres.

Punggol Coast will also continue to become more connected to the rest of Singapore when the Punggol Coast MRT station opens in 2023 as part of the North-East Line extension.

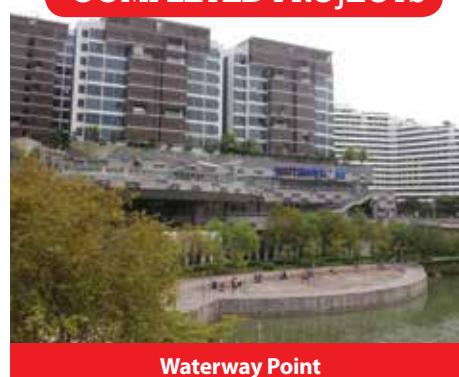

Our Punggol Coast story has many more chapters to come. Together, we can make Punggol a better home for everyone.

Punggol West

Punggol West is home to many young families. I know that convenience is important for you as you navigate your work and taking care of the family.

Thus, we have put in place many facilities to help your commute and make the most out of your family time with your children.

We finished the construction of the linear park in 2015 which connects blocks in the Clovercrest and Seas estates all the way to the Punggol MRT Station and Waterway Point mall.

We have also added covered linkways outside Punggol Green Primary School as well as at Punggol Topaz. We widened the entrance at Block 232B to include in/out options to cut short your travel time and also added a park connector near Matilda Court to facilitate your access to Punggol Waterway Park. The frequency of new Bus Service 382A was increased so as to better serve residents in the Sumang area. As a town, we have new road infrastructure such as the KPE link and we can look forward to four new MRT stations that will better connect us to Pasir Ris.

Apart from infrastructure improvements to provide more convenience, we have also added educational and care facilities, PCF Sparkletots Preschool and St Luke's ElderCare at Block 222 Sumang Lane, to take care of our young children and elderly residents. We will have two new schools Valour Primary School and Yusof Ishak Secondary School and there will be further developments in the Matilda area.

There is much to look forward to in our young and growing town. I look forward to working with you to continue to deliver improvements in Punggol West.

Schemes

New schemes have been launched and existing ones enhanced to help lower-income families affected by Covid-19. Here are some key highlights:

COVID-19 SUPPORT GRANT

Who is it for?

Singaporeans or permanent residents aged 16 years and above who were retrenched or had their contracts terminated due to the pandemic; were made to take no-pay leave for at least three consecutive months; or had their salaries reduced by at least 30 per cent for three consecutive months.

What will I get?

Those who have lost their jobs can get up to \$800 a month for three months, as well as employment and training support from Workforce Singapore and the Employment and Employability Institute. Those who are on no-pay leave will be able to access courses subsidised by SkillsFuture Singapore. Those who had their salaries reduced can get monthly cash grants of up to \$500 for three months.

When will it start?

Applications are open from May 4 to September 30 this year. Successful applicants will have the money credited to their bank account.

TEMPORARY RELIEF FUND

Who is it for?

Singaporeans and permanent residents aged 16 years and above who have lost their job or at least 30 percent of their personal income after January 23 this year, when Singapore reported the first case of Covid-19.

Schemes to help families tide over Covid-19 crisis: Key highlights

What will I get?

A one-off \$500 cash payout.

When will it start?

Applications were open from April 1 to April 30.

THE COURAGE FUND - FOR HOUSEHOLDS

Who is it for?

Singaporean or permanent resident lower-income families that lost at least 10 per cent of their household income because of one or more family members contracting Covid-19 or being placed on quarantine order, stay-home notice or leave of absence.

What will I get?

A one-time payment of up to \$1,000, depending on the monthly per capita income of a recipient's household.

When will it start?

Families can apply at any Social Service Office within six months from the end of their family member's discharge from hospital, quarantine order, stay-home notice or leave of absence.

THE COURAGE FUND FOR DEPENDANTS

Who is it for?

Dependants of a Singapore citizen, permanent resident, holder of valid Employment Pass, work permit, Dependant's Pass or Long Term Social Visit Pass who has succumbed to Covid-19.

What will I get?

A lump sum of \$10,000. Families of healthcare workers, front-line workers and community volunteers get more.

When will it start?

Apply from April 6. More information is available at hospitals.

Some other schemes which people qualify for automatically:

SOLIDARITY PAYMENT FOR SINGAPOREANS

A one-time sum of \$600 for all Singaporeans aged 21 and above, credited into a recipient's bank account or paid by cheque from April.

SOLIDARITY PAYMENT FOR LONG-TERM VISIT PASS-PLUS (LTPV+) HOLDERS

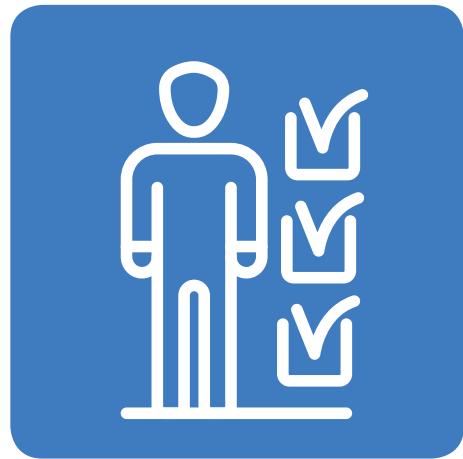

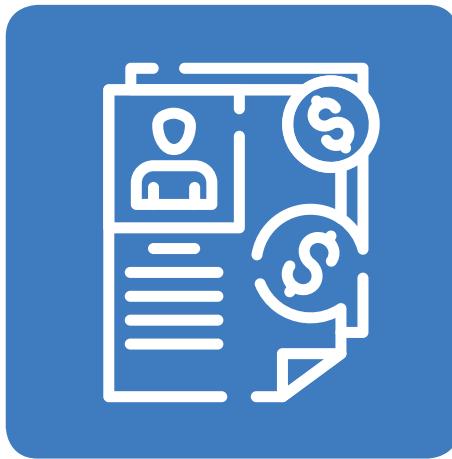

A one-time payment of \$300 for adult LTPV+ holders — foreign spouses of Singaporeans or permanent residents — living in Singapore aged 21 years and above. The sum will be paid by cheque starting from the end of this month.

ENHANCED CARE & SUPPORT PACKAGE

A cash payout of \$300 or \$600 for all Singaporeans aged 21 years and above with assessable income of up to \$100,000 for the Year of Assessment 2019. The sum will be paid out next month.

CASH PAYOUT FOR SINGAPOREAN PARENTS

A cash payout of \$300 for each Singaporean parent with at least one Singaporean child aged 20 and below this year. The sum will be paid out next month.

ENHANCED GROCERY VOUCHERS

Grocery vouchers of \$300 for this year and \$100 for next year for Singaporeans aged 21 years and above living in one- or two-room HDB flats and who do not own more than one property. This year's payment will be made in October and December.

ENHANCED WORKFARE SPECIAL PAYMENT

A sum of \$3,000 for Singaporean employees and self-employed persons who received Workfare Income Supplement payments in Work Year 2019. Two payments of \$1,500 will be credited

into the bank account or paid by cheque in July and October.

SELF-EMPLOYED PERSON INCOME RELIEF SCHEME

A total sum of \$9,000 for self-employed Singaporeans aged 37 and above who were already self-employed on or before March 25 this year. Disbursed in three quarterly payouts of \$3,000 each in May, July and October.

EXTENDED COMCARE ASSISTANCE

Existing ComCare beneficiaries whose assistance is ending by July this year

will have it extended for a further six months without review, with the need for submission of new documents and signatures waived.

HELP TO SAVE JOBS

Working Singaporeans also benefit indirectly from measures to save jobs. They include the Jobs Support Scheme which foots 75 per cent of the first \$4,600 of wages for April and May, and at least 25 per cent of wages for the remainder of the year.
